KETTLER®

We create premium products that inspire movement, spark play, and bring people together through healthier, more active living. Founded in 1949 by Heinz Kettler in Ense-Parsit, Germany, KETTLER® was built on a clear purpose: to design exceptional products that stand the test of time and enrich everyday life. That commitment remains at the core of our brand today, earning KETTLER® global recognition for its uncompromising craftsmanship, innovation, and thoughtful design.

For more than 45 years, KETTLER® USA has proudly carried this legacy throughout the Americas. Guided by a relentless focus on innovation, safety, and durability, every product is engineered to create lasting impact—encouraging kids to play freely, strengthening connections, and empowering people of all ages to live healthier, more active lives together.

Product Details & Pictograms

Description	Example
Product Name	Rody Horse
Description/Extra Info	Red w/Pump
Model Number	8002
UPC/EAN	8001698080024
Recommended Age Range	3 - 5 years old
Country of Origin (Italy, Germany)	
Class I Medical Compliant	

Contents

Physio Cushions & Balls	29
Heavy Med Balls & Training Bowls	30
Ritmic Balls	31
Fitness Balls	32-33

A young child with dark hair in two small pigtails is pushing a green toy car on a light-colored wooden floor. The child is wearing a light-colored striped shirt and overalls. The toy car is green with a black handle and has a face-like design on the front. In the background, there is a wooden bookshelf filled with books and a large window with white curtains, letting in bright light. The scene is set in a bright, airy room.

Early Learning

Toys that spark creativity, build motor skills, engage kids' senses, enhance cognitive growth, and encourage social interaction, laying the foundation for future success through fun and play!

66 - 80	27 - 32	65	26
81 - 90	33 - 36	75	30

Do not sit on balls with a diameter of 150 and 180 cm. Loss of balance may cause injuries to the user.

BRQ

Burst Resistant Quality. Products with BRQ logos are manufactured with a specific formula that prevents the ball from bursting in case of a puncture. Instead, the ball slowly deflates. The BRQ system works with max. 120 kg (270 lbs).
